Major SBA Policy Enhancements Benefiting U.S. Manufacturers

SBA Trump Administration Policy Change	Key Benefit to Manufacturing	Real-World Example
Red Tape Hotline	Provides a Red Tape Hotline for small businesses to report burdensome regulations that inhibit small business growth.	A manufacturer submits burdensome rules to redtape@sba.gov, prompting a review that lowers operational compliance costs.
Make Onshoring Great Again Portal	Provides online portal of 1 million U.S.-based suppliers and manufacturers at www.sba.gov/onshoring	Small business uses the portal to identify a new, domestic supplier of a part previously acquired from overseas vendors.
Decoupling: Doubled SBA Cumulative Loan Limits for 7(a) and 504 Loans	Raises the amount a manufacturer can borrow in total from both the 7(a) and 504 loan programs from $5 million to $10 million.	A CNC firm can acquire another business and still invest in machinery and equipment.
Manufacturers' Access to Revolving Credit (MARC) Loan Program	Provides up to $5M in revolving credit specifically for manufacturers.	A local textile plant uses a MARC line of credit to finance inventory for a large incoming order without tying up cash flow.
Made in America Loan Guarantee	Offers a 90% federal loan guarantee for manufacturers to expand facilities and reshore production.	A small electronics firm secures financing to move its production from overseas back to a new U.S. facility.
Grocery Loan Guarantee	Offers a 90% federal loan guarantee for businesses that support America's food supply chain and production.	A meat processor secures financing to purchase a new production line to expand offerings and add new customers.
FY2026 Fee Waivers	Waives most upfront SBA loan fees for manufacturers in NAICS 31-33 up to $950,000.	A small custom fabricator saves thousands in upfront fees when taking out a loan to automate their production line.
